Product Code: DC50GSM-M

Availability: Out Of Stock

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

Medmart Health's disposable coveralls protect the user's torso, arms, legs and head from the hazards of light sprays and splashes of liquid chemicals, fine particulate contact and electrostatic dissipation.

Coveralls are lightweight and feature a light micro-porous spun-bound material which is soft, breathable and provides a high level of moisture management, without reducing protection. It is resistant to noxious dust and splashes, is non-linting and ideal to use in environments not to be contaminated or in general maintenance.

- Disposable full body coverall.
- Elasticated wrists, legs and waist.
- Micro-porous spun-bound fabric with bound seams.
- The coverall is intended for single use only.
- Avoid intense heat, direct flame, sparks or hot surfaces. The gown begins to melt at 120°C.
- Colour: White

Please note one coverall cost R50 and an order starts from 10 units.
